An Exact LIST of the House of Commons, who  
Voted *For* and *Against* the *Convention.* Price 6d.

An Authentick LIST of the Members of the House of Commons, who Voted For and Against the late *Convention*, hath been lately printed—since which, several false Representations have been made concerning the Behaviour of several Noble Lords upon the same Occasion; it hath been, therefore, thought proper to do the same Justice to their Lordships on both Sides (that hath been done to the Members of the House of Commons) by the following True and Authentick List of all who Voted For and Against that memorable Transaction.

The following List also shews how large a Sum of Money is *visibly* paid yearly to several Noble Lords, besides the *secret Favours* that may be conferr'd on them, their Relations and Friends, which (*did not the Nation intirely depend upon their Lordships Honour*) might be an Inducement to support the worst Minister in the most pernicious Measures, to the Destruction of their Country.
